

RECYCLING TECHNOLOGY

Range of Products

Size Reduction

Machines for grinding plastic materials such as production waste , film , fibers , molding- & extrusion waste , profiles , plates & pipes, Granulators , Wet-Granulators , Pipe Granulators , Pulverizers , Shredders , Guillotines

Washing

Washing Plants and single Mashines for cleaning of plastic materials in combination with hot or cold water or dry without water, Friktionwasher , Mechanical Cleaner , Intense Cleaner, Dry Cleaner , Prewasher , Hotwascher

Drying

Dryer for draining of plastic materials, Mechanical Dryers , Thermal Dryers , Centrifuges , Screw Presses , Plast Compactors

Seperation

Machines for the seperation of Metals, Glas, Stones and other contaminates out of plastics, Fines Seperator , NE- Seperator , Metalseperator , Seperation Screw , Float-Sink-Tank , Screening Machines

Conveying systems / Silos

Systems for conveying and storing of plastic materials
Conveying Screws , Conveying Blowers , Conveyors , Cyclones , Film & Fiber Silos , Silos

Treatment Plants

Plants for processing plastic waste, waste water & exhaust air
